WELLNESS PLAN OVERVIEW

Dogs and cats age at a much faster rate than people do. For every year that you age, your dog or cat can age from 6 to 8 years.

Your pet's medical and nutritional needs change as their bodies age. A **Wellness Plan** helps manage their evolving health care needs by monitoring vital organ function and detecting problems early, before they become life threatening.

Every **Adult Wellness Plan** offered by **Avian and Animal Hospital** includes all necessary examinations, vaccines, laboratory tests, and other services essential to protect your pet against illness and disease. An upgraded plan is designed to provide additional services like routine dental cleanings, radiographs, and more extensive blood work. Our goal is to keep your pet healthy and happy during the prime years of their life.

Adult TruePet Wellness Plans are designed for pets older than 7 months of age.
