# WELLNESS PLAN OVERVIEW

Birds are very delicate creatures and require plenty of attention to thrive. Birds instinctively hide their illnesses so it is important to pay close attention to their behaviors. Access to routine health care and the proper living environment is the best combination for a happy and healthy life.

Your bird's medical and nutritional needs are very important to their well being. A **Wellness Plan** helps manage their health care needs by monitoring vital organ function and detecting problems early, before they become life threatening.

Every **Avian Wellness Plan** offered by **Avian and Animal Hospital** includes all necessary examinations, laboratory tests and other services essential to help protect your bird against illness and disease. An upgraded plan is designed to provide additional services like more extensive tests and lab work. Our goal is to keep your feathered friend as healthy and happy as possible during the prized years of their life.

**Avian Wellness Plans are designed for birds of all ages.**
